TOOLS

- ▶ Flexible tool attachment for tool handles of various dimensions
- ▶ Smooth wire with minimal impact during use

## D-SHACKLE WIRE

Tool attachment product for tools with holes such as hammers, torque wrenches, screw clamps, etc. The flexible wire fits handles with varying dimensions and has minimal impact on tool use. The D-shackle is made of stainless steel wire, 316, and has an eye of zinc alloy. Bolt/nut in acid-proof A4 quality. The wire is delivered with two bolts for increased flexibility and a special nut with a chemical friction lock, Tuflok. **Max weight of tool 3 kg.**

ITEM NO	DESCRIPTION	WIDTH (A)	WIRE LENGTH (B)	WIRE EYE, (C, D)	SIZE BOLT
